Testimonials

This should be a required class judges mandate for all parents going through divorce or separation. It provided detailed information, great suggestions and was easy to understand. I appreciated the convenience and feel I have truly become a better co-parent for the sake of our child.

George, CA

I really liked this class. Being a victim of domestic violence I did not feel safe or comfortable in a room with men. I was able to take this course at home, at my own pace and therefore it became easier to understand and retain. Thank you.
